## Inpatient Discharge Summary

Referral Doctor: Dr Mat Haswandi

Admission Date: 11 /9/2024 @ 08:00 Hours

Discharge Date:18 /9/2024@ 17:00 Hours

### Reason for Admission:

Presented with right hypochondriac pain for 1 day associated with abdominal distension and no bowel opening. No vomiting. Pain was as intense as previously admitted. Patient had history of lap cholecystectomy done 13/5/2023. Intraop noted dense adhesion at GB bed requiring subtotal cholecystectomy.

### Physical Findings and Diagnostic Test:

Vital Signs: 120/80 Blood Pressure mmHg, Heart <sup>112</sup>per minute, Respiration Rate <sup>25</sup>breaths per minutes, 37 Celsius,

Abdomen: guarding at RHC.

### Surgery/Procedure:

Laparotomy, adhesiolysis, abdominal washout and drain insertion done(Control fistula)

### Treatment:

He was admitted to HDU in view of shortness of breath in A&E. Post laparotomy, he was discharge to the ward and improved well. He was also treated for pneumonia. He is much improved after being warded for 1 week with antibiotics. He was referred to Dr William Chau for pneumonia and Dr Lim Joo Kiong for assistance intraoperatively.
